PROFESSIONAL EXPERIENCE

Graphic Designer | 2024-2026

MK Themed Attractions Philippines

- Handle the entire studio photography process, from setting up studio lighting to shooting clean, high-res product photos with a DSLR camera.
 - Retouch, color-correct, and clean up product imagery in Photoshop to make sure everything looks polished and consistent for online listings.
 - Build accurate digital mockups to showcase different product variations, packaging designs, and color options.
 - Format, optimize, and upload finished product photos directly to e-commerce sites, making sure they meet all platform requirements and size limits.
 - Design and layout multi-page product catalogs in InDesign, keeping a clean visual hierarchy and consistent branding throughout.
 - Create custom vector icons and graphics from scratch in Illustrator to use across website layouts and marketing materials.
 - Manage a high volume of digital assets, keeping files organized from the initial raw camera shoot to the final web-ready upload.
-
